

Specifications

Description

Adcraft's stainless steel electric salamanders are great for cooking, grilling, re-heating and holding foods. The adjustable upper housing has powerful, independently controlled heating element(s) that will both cook and re-heat food quickly when needed. Infinite control dial(s) allow you to have precise control over how long the heating period lasts. The removable drip tray and cooking grate allow for easy cleaning. These salamanders can be used on the countertop or mounted to the wall with their special wall mounting bracket system (sold separately). These units are 240V and come with a 4' long power cord that has a NEMA 6-20P plug. This unit is CE Certified and backed by Adcraft's 1 year warranty.

Construction

- Commercial quality heavy duty stainless steel construction
- Stainless steel upper housing has a vertical movement of 8" to 2.75"
- Polished reflectors above the heating element(s) to help radiate heat down towards the cooking area
- Removable stainless steel drip tray and cooking grate
- Cool-to-touch bakelite handle for safe adjusting of the upper housing
- Non-slip rubber feet for stability when using on the countertop

Operation

- Adjustable vertical movement upper housing adjusts the intensity of the heat given off by the heating element(s)
- Infinite control dial allows you to precisely control how long the heating period lasts

Electrical

- 240V, Single phase
- 4' power cord with NEMA 6-20plug
- Can be used with a plug or hardwired
- Plug and hardwire are both located on the bottom lower right of the unit

Mounting

- Optional wall mounting bracket sold separately
- SAL-2800W/MB and SAL-4000W/MB
